Entry Level Test Set

AEGIS

Analogue Test Set

Basic Analogue

Phone Line

Test Unit

The TS19 test set has been specifically designed for the in-house telecom technician. This back-to-basics dual function test set has both tone and pulse operation, last number redial, solid state circuitry and a high impedance monitor. It is ergonomically shaped to be comfortable. All the features of a basic test set at a very realistic price.

Features:

- High impedance monitor for Datasafe™ operation
- Talk/monitor/ringer modes
- Continuous polarity indication
- Last number redial: 18 digits, tone or pulse mode
- Electronic ringer ON/OFF
- Field replaceable belt hook

TS19 with angled bed of nails clips.....P/N 19800-009
